Premium Support

Essential

<sup>\*</sup> The number of protected computers and mobile devices is calculated as the sum of all objects in the license. For example, license for 100 objects can be used to protect 70 computers and 30 mobile devices.

<sup>\*\*</sup> Users can activate protection on as many mobile devices as the total number of license objects.

For example, when purchasing a license for 100 objects, the user can protect 100 computers and 100 mobile devices.

# Modern multi-layered endpoint protection with powerful machine learning and easy management

#### **Capabilities:**

Management Console

Endpoint and Mobile\* Security

Server Security

# POWERFUL MULTI-LEVEL PROTECTION FOR ENDPOINTS, MOBILE DEVICES AND SERVERS

- Powerful endpoint protection with low false positive rates, minimal performance impact and high detection rates
- Reliable protection against malware using ESET LiveSense multi-layered approach that combines machine learning, advanced behavioral data and human expertise

# XDR-ENABLED NETWORK SECURITY MANAGEMENT PLATFORM

- On-prem or cloud-based installation
- Powerful security and IT operations management tools
- Dynamic groups, hardware and software inventory
- Completely multitenant and granular policy control
- Detailed reporting (with over 100 predefined templates)
- Notifications, exceptions and quarantine management
- Easy to set up and use even for small organizations

Endpoint and server protection from ransomware and unknown threats combined with data protection

#### **Capabilities:**

Management Console

Endpoint Security
and Mobile Threat Defense\*\*

Server Security

Advanced Threat Defense

Full Disk Encryption

#### **POWERFUL FULL DISK ENCRYPTION**

- Encryption management on Windows and macOS devices
- Encryption of system disks, partitions or entire drives
- Single-click deployment, activation and encryption

#### **ADVANCED THREAT DEFENSE USING CLOUD SANDBOXING**

- Proactive protection against previously unknown threats
- Suspicious samples execution in an isolated and powerful cloud sandbox
- Advanced multi-level analysis
- In-depth behavioral analysis
- Granular reports
- Convenient sample submission for analysis
- Automatic protection
- Advanced machine learning

<sup>\*\*</sup> In all business solutions except ESET PROTECT Entry, users can activate protection on a number of mobile devices that corresponds to the total number of license objects. For example, when purchasing a license for 100 objects, user can protect 100 computers and 100 mobile devices.

**Management Console** 

649

**Endpoint Security and Mobile Threat Defense** 

**Server Security** 

**Advanced Threat Defense** 

**Full Disk Encryption** 

**Mail Security** 

**Cloud App Protection** 

**Vulnerability & Patch Management** 

# Multi-level protection for endpoints, cloud applications and email

# EMAIL AND CLOUD-BASED COLLABORATION AND STORAGE APPS PROTECTION

- Anti-malware for MS Exchange, Exchange Online, OneDrive,
   SharePoint Online and Teams servers
- Antispam for Exchange and Exchange Online servers
- Anti-Phishing for Exchange and Exchange Online servers
- Detection of previously unknown threats using cloud sandboxing
- Quarantine management

#### **ACTIVE TRACKING AND PATCHING OF VULNERABILITIES**

- Automated scanning with schedule settings
- Severity-based prioritization of vulnerabilities
- List of affected devices and vulnerability database
- Automatic and manual patching

- Exceptions for specific vulnerabilities
- List of available patches/new software versions
- Customizable patching policies

Detection & Response (XDR)

# Corporate network protection enhanced by prevention, detection and response capabilities

#### XDR-ENABLING COMPONENT WITH DETECTION AND RESPONSE CAPABILITIES

- Detailed network visibility
- Anomalous behavior detection and advanced threat hunting
- Root cause analysis
- Multiplatform coverage (Windows, macOS, Linux)
- Immediate response including endpoint isolation
- IOC and query based search
- Public API
- MITRE ATT&CK integration
- On-prem or cloud-based installation

**Management Console** 

644

**Endpoint Security and Mobile Threat Defense** 

**Server Security** 

**Advanced Threat Defense**

**Mail Security** 

**Cloud App Protection** 

**Vulnerability & Patch Management** 

**Detection & Response (XDR)** 

**Multi-factor authentication** 

# Comprehensive approach to prevention, detection and response combined with data protection

#### **MULTI-FACTOR AUTHENTICATION**

- Mobile applications, push notifications, hardware tokens, FIDO security keys and custom methods support
- Push authentication support for iOS and Android smartphones
- Web/cloud services support
- VPN, RDP, VMware Horizon View and RADIUS-based services support
- Full API and SDK included
- No dedicated hardware required

**Management Console**

Multi-factor authentication

**ESET MDR service** 

**ESET Premium Support Essential** 

# Enhanced protection of the IT environment thanks to the involvement of leading experts

#### **ESET MDR (MANAGED DETECTION AND RESPONSE SERVICE)**

- 24/7 expert-led continuous monitoring, hunting, triage and response
- Tailored reporting
- Continual improvement and automating, behavior patterns and exclusion optimization
- Advanced signal hunting library

#### **ESET PREMIUM SUPPORT ESSENTIAL**

- Priority call queuing
- Guaranteed response time
- Unlimited premium requests

#### Proactive email protection against zero-day threats

#### **Capabilities:**

**Management Console** 

(P4P)

**Advanced Threat Defense** 

**Mail Security** 

#### **MAIL SECURITY**

- Antispam
- Anti-phishing
- Antivirus
- Web-based quarantine
- Hybrid Microsoft 365 scanning
- Rules

# NEED ADDITIONAL PROTECTION?

# PRODUCTS FOR ADDITIONAL PROTECTION

#### **DATA ENCRYPTION**

- ✓ Full disk encryption
- ✓ USB encryption
- ✓ File/folder encryption
- Email encryption
- ✓ Centralized management
- Encryption key management
- ✓ Corporate proxy server

# MICROSOFT SHAREPOINT SERVER SECURITY

- Antimalware and Antispyware
- ✓ Network Attack Protection
- Ransomware Shield
- ✓ Behavioral Detection HIPS
- ✓ Botnet protection
- ✓ Database Scan
- ✓ Advanced memory scanner, Exploit Blocker
- ✓ Cluster support
- ✓ Antiphishing, Device Control

#### THREAT INTELLIGENCE

- Access to the most up-to-date information about threats
- Early warning of targeted malware, advanced persistent threats, botnet activity and targeted phishing attacks
- Automate threat investigation
- ✓ Proprietary intelligence feeds
- Actionable content

# safetica

#### DATA LOSS PREVENTION (DLP)

- Tough on insider threats and data loss
- Easy on users and infrastructure
- Protects data in hybrid work era
- Supports regulatory compliance
- All-in-one DLP & insider threat protection
- The easiest to implement & integrate enterprise
   DLP
- Advanced workspace control & behavior analysis
- Very low hardware requirements for servers and devices

#### **NETWORK TRAFFIC ANALYSIS**

- Round-the-clock security monitoring
- Powerful rapid detection & response capabilities
- Deep visibility into the internal network
- Easy-to-use functionality
- Threat detection and harm prevention
- Threat detection in IoT devices
- Application monitoring
- Network performance monitoring
- Network Behavior Analysis

#### **BACKUP AND RECOVERY**

- Backup for computers, servers and virtual environment
- Backup for Exchange, Outlook and OneDrive data
- Complete protection for critical files
- Control over all backups
- Easy to use and cost savings
- Remote management

### WHY MANAGED DETECTION AND RESPONSE SERVICES?

Continuous detection evaluation and correlation via a structured and mapped incident

Providing individual reports on incidents, environmental status automatically or on request

24/7 expert-led continuous monitoring, hunting, triage and response that leverages IoC, UEBA, AI and comprehensive ESET Threat Intelligence feeds

Dedicated incident response lead

Threat hunting that uses deep analysis, historical data and observation of potential threats

Deployment and modernization of solutions and reducing the risks of incorrect product configuration

Expert assistance for MDR alerts with more context
